BOXER RHK TIMBER CLAMP WITH ROTATOR

Boxer RHK Timber Clamp with Rotator for Mini Shovels - Powerful and Flexible Timber Grapple

Looking for a powerful wood grapple with rotator for your mini shovel? The Boxer RHK Wood Clamp is the solution for efficiently picking up, moving and stacking logs, branches and other heavy materials. With its 360° hydraulic rotator and a large opening width of 1500 mm, this wood grapple is ideal for forestry, agriculture, landscaping and construction applications.

This wood grapple is designed for optimum ease of use and safety. It offers a strong grip, robust steel construction and is compatible with various attachment systems, including W-connection and Euro-connection.

RHK1500E : €2,950.00
